Interior Health

Medical Laboratory Technologist

Position Summary
Interior Health is seeking Medical Laboratory Technologists to join our team of Lab professionals across the sunny southern interior of British Columbia. Our region is a world-renowned vacation destination, offering hot summers and milder winters, envious lifestyle and recreation choices and career opportunities to match your aspirations.
If you are a qualified Medical Laboratory Technologist (MLT) or currently completing an MLT student practicum and do not see the exact vacancy you are looking for; then please apply to this competition and your application will be reviewed.

About the Job
Medical Laboratory Technologist's work in a supportive, team-based environment and perform a variety of duties within the assigned discipline department. Your responsibilities will include:
Performing routine and/or complex tests, utilizing manual procedures and automated instruments
Greeting patients and collecting and/or receiving specimens
Entering data into the Lab Information System (LIS), related systems and programs
Validating and reporting test results
Maintaining instruments and preparing solutions and control agents
Contributing to training, evaluation and improvement programs

Qualifications
Graduation from an approved Medical Laboratory Science Program.
Successful completion of recognized competency assessment exam and registration in the relevant field(s) of practice in accordance with the Canadian Alliance of Medical Laboratory Professionals Regulators (CAMLPR) pathways, or certification with the Canadian Society for Medical Laboratory Science (CSMLS).
One (1) year recent related experience.

What We Offer:
Employee & Family Assistance Program
Employer paid training/education opportunities
Generous Vacation Entitlement
Employer Paid Health Benefits
Municipal Pension Plan
Shift Premiums and Competitive Wages

Applicable positions may qualify for up to $20,000 as a recruitment incentive and/or be eligible for relocation allowance. Apply today!
