## **CAMLPR and Accreditation Canada Partner to Strengthen Medical Laboratory Science Education**

The Canadian Alliance of Medical Laboratory Professionals Regulators (CAMLPR) and Accreditation Canada | Equal are pleased to announce the signing of an agreement to provide accreditation services to Medical Laboratory Science (MLS) educational programs.

This collaboration marks an important step in ensuring the continuity of educational quality assurance, while equipping future MLS professionals with the skills and knowledge needed to meet the evolving demands of the sector.

Under this partnership, CAMLPR and Accreditation Canada | Equal will work together to incorporate the CAMLPR competency profile(s) into the accreditation assessment process. In the coming months, CAMLPR and Accreditation Canada | Equal will consult with stakeholders and engage with educational programs to ensure that necessary curriculum updates are being made.

We look forward to continuing our collaboration with educational programs to ensure high-quality education for MLS professionals.
