

## **Medical Laboratory Technologists**

**Location:** Alberta, Canada

**Job Type:** Permanent, Temporary, Full Time, and Part Time

**Salary Range:** \$37.61 - \$49.53 per hour

### **Your Opportunity:**

Alberta Precision Laboratories (APL) is hiring Medical Laboratory Technologists (MLTs) in communities across the province.

Experience a natural playground for all kinds of activities from hiking, biking, horseback riding, skiing, snowmobiling and more. Get closer to Alberta's Rocky Mountains, the wildlife, and the unexpected hidden gems far from where tourists frequent. You can even grab a front-row seat to some of the best northern lights displays in Canada! It's not just the natural world that makes working in Alberta special, either. Province-wide you'll find thriving arts and cultural scenes, sports teams at all levels, world-class events and concerts, and so much more. You won't have to look far to find a setting that suits you - your personality and your lifestyle.

APL delivers high-quality, responsive diagnostic lab services to Albertans as a part of the provincial healthcare system. With competitive salaries, opportunities for professional development, and comprehensive benefits, you can truly thrive. Make a difference in your own community as you help healthcare professionals and patients get the information that they need to improve, optimize, or maintain health.

Come and join our diverse team and get the opportunity to utilize all of the skills and experiences you have gained through school. This is a working level position utilizing technical skills and judgment performing a diverse range of diagnostic procedures in the Clinical Chemistry, Hematology, Transfusion Medicine, and Specimen Procurement departments, within the scope of practice of an MLT.

Join our professional and engaging team that encourages promoting a positive and respectful work environment consistent with the APL Values: kindness, inclusion, innovation, agility & accuracy.

Relocation assistance and other recruitment incentives may be available with a Return of Service Agreement.

### **Description:**

As a Medical Laboratory Technologist, you will be responsible for the daily processing, testing, results analysis and reporting of diagnostic samples within the laboratory department. You will perform a variety of routine and specialized procedures in the processing of specimens used in diagnosis, treatment and research.

### **Qualifications:**

Completion of an accredited Medical Laboratory Technology (MLT) program. Active or eligible for registration and practice permit with the College of Medical Laboratory Technologists of Alberta (CMLTA).
